

FCCLA Planning Process Summary Page

IDENTIFY CONCERNS

- Finishing project before it was due
- Having technical difficulties
- Not getting officers together
- Not getting enough pictures
- Not having common time to work
- Not having good internet connections

SET A GOAL

- One of our goals was to have a website for everyone to visit and have a better understanding about what the club is about and what it does as a whole.
- Create a resource that could be used in following years by students, FCCLA members, teachers, and community members.
- Another one of our goals was to create something that could take us to the state level and to Nationals.

FORM A PLAN (WHO, WHAT, WHEN, WHERE, HOW, COST, RESOURCES, AND EVALUATION)

- Who: Our FCCLA members
- What: To be more informed about FCCLA
- When: Anytime they need information
- Where: mosineefccla.weebly.com
- How: Visiting our website
- Cost: \$39.95 to go "Pro"
- Resources: Our advisor, FCCLA members, FCCLA alumni, and the internet
- Evaluation: Project to help us and others understand the club

ACT

- Created a list of everything we wanted to incorporate on the website.
- Categorized information into different sections which would then be the tabs.
- After bouncing our ideas of each other and our peers, we knew how to get started.
- We then set out to complete the project and following the requirements.

FOLLOW UP

- We now understand how much time it takes to create an effective website.
- This project helped not only us, but other members understand all we have accomplished as a chapter.
- We feel better about sharing information effectively with members, students not involved in FCCLA, teachers, and community members.
